First Major Snow Storm Of Season Hits This Region

The first major storm of the season swept in over the Sierra last Friday, continuing through Monday and deposited a total of 21 inches of snow at the U. S. Forest Service station here.

The heavy snow, whipped by a strong wind, completely snarled traffic over Donner Summit Sunday night as trucks, buses and cars were ditched or stalled. Snow plows, manned by division of highway crews kept the roads cleared for the most part but the narrow road just couldn't handle the heavy traffic.

Edward Miller, assistant to the district engineer and Nick Nicholson, maintenance engineer, both of the Marysville office of the division of highways, were in the area and praised the work of the crews but deplored the fact that traffic made it impossible to keep the road open at all times.

Many cars ran out of gasoline, others had dead batteries and still others just couldn't stay on the icy highway. As a result it took from eight to ten hours to get across the summit.

The storm abated Monday evening with precipitation reported for the month at 2.84 inches compared to a normal for November of 2.29 inches, the forest service reported.

Following the storm, temperatures dropped to a low of 10 degrees Tuesday morning. The high for the week was 58 degrees last Saturday. There were 16 inches of snow on the ground at the ranger station Tuesday.

On Donner Summit 44 inches of snow fell to provide early skiing for winter sports enthusiasts.

Overturned Truck Blocks Highway 40

Traffic over Highway 40 was halted twice Monday when a huge gasoline truck overturned at the foot of Donner grade and a fire was threatened.

The tanker, driven by Charles D. LaRue of North Sacramento was crowded off the highway and went into the loose snow and toppled over. The trailer stayed upright.

The accident occurred about 1:30 p. m. and in order to avoid fire from passing vehicles, traffic was halted for an hour at Colfax and the Truckee quarantine station. Later it was found that the danger was not great and traffic was permitted to resume.

Young during an alleged holdup near Truckee on August 3, is to be represented in court by Robert Fugazi, Truckee attorney, appointed by the court. Leo Todd of Grass Valley has been named by the court to represent Smithson.

No charges were placed against the three juveniles, Donald Snyder, Kelly Coleman and Larry Personeau, who fled the county jail with two adults. They are being held for the California Youth Authority.

Jimmy Heuga Will Train In Austria

Jimmy Heuga, 17 year old son of Mr. and Mrs. Pete Heuga of Tahoe City and national slalom skiing champion, left Friday for Europe where he will train with the Austrian national ski team until late January. He will be in training at Kitzbuhl.

Jimmy, top skier in the United States at the age of 16, defeated the best in his field last winter in the National Championships but was not included on the U. S. Olympic team.

In 1959, the Sierra Nevada Sportswriters and Broadcasters Association in Reno honored Heuga with their selection as athlete of the month in January and in January, 1960 repeated the honor. There was considerable controversy when Jimmy was not selected on the Olympic team.

The youthful athlete has been attending the Tahoe Truckee High School for the past three years and has maintained a B average in studies. This, his parents feel, justifies his training in Europe for the next three months.

Jimmy is going to be in shape to ski with the U. S. team in the world championships in France in 1962 and in the Olympic in Austria in 1964.

Corbett was attempting to pass two other cars at the time. Lynn was taken to the hospital by Truckee Ambulance.

Marlin E. Greiss of Reno was the victim of a hit and runner Monday morning at 4 a. m. three miles west of the summit. He told highway patrolmen that a swerving auto struck his car and then fled. An immediate alert failed to find a trace of the hit-run car.

A chain which came off one wheel was blamed for the accident nine miles east of Truckee Monday at 6 a. m. which sent James Showatler, an airman at Stead Air Force Base to the hospital with injuries. Showalter said the car went out of control and down a 150-foot embankment into the canyon.

BOARD STUDIES FULL TIME ATTORNEY BID

NEVADA CITY—Full time district attorney at a salary commensurate with the full time duties of that office, $14,500, was suggested before the October meeting of the board of supervisors Tuesday by Harold Berliner, current district attorney. The part-time salary for the office is about one half that amount.

The district attorney said the Nevada County Grand Jury had adopted a recommendation for a full time district attorney and felt that perhaps the supervisors would like to adopt a similar resolution for presentation to the next session of the California State Legislature.

Berliner said it would be well to get the resolutions in early due to the anticipated busy and crowded session of the upcoming legislature. The supervisors felt that they would wait and look at the Grand Jury resolution first.

STRIKES & SPARES

BY JOE WILMAN

RELAX AND PICK UP STRIKES!

So many bowlers are generally more accurate on their second ball than on their first. Why will they miss the head pin entirely with their first effort, leaving five or six pins to pick up on the second ball?

Why when they can thread a needle with the second shot and pick up a spare without any effort?

The reason for this sudden change from an inaccurate first ball to a perfect ball lies in relaxation, in not trying too hard on the first ball. These bowlers are too keyed up, like my friend, "Over-anxious Oscar." They tense up at the thought of even trying for a strike. Unconsciously, they even try to put extra speed or stuff on the ball—and we know what that does to aim and coordination!

When the reason for this tenseness is removed (the opportunity for a strike), they relax. They concentrate on their shot, but they let the ball roll. They forget about trying to put extra stuff on the shot. As a result, they have natural speed in both their footwork and arm swing. They have timing and coordination, just as I have, delivering the ball in the accompanying illustration.

In short, they are better bowlers on the second ball because they do the things they should have done on the first ball. Try applying these correct habits and this relaxed attitude to your first ball and see if you don't have more success.

L. R. deGallery, your Telephone Manager in Tahoe City

TAHOE CITY VOLUNTEER FIREMEN HONORED

Twenty-five volunteer Tahoe City firemen were treated to a dinner recently by local employees of the Pacific Telephone Company.

The purpose of the occasion was to give recognition and sincere appreciation for a good job well done in saving our Tahoe Central Office from fire.

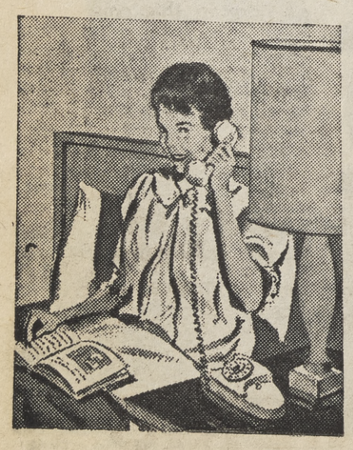

In several speeches that were made, Fred Milligan, supervising wire chief and Gus Strongren, wire chief, praised Al Henry, local fire chief and his men for their fast and efficient action in putting out the fire.

Maintaining phone lines is a never ending job! To keep phone lines ready for your calls, men in Telephone Patrol planes fly along hundreds of miles of phone cable nearly every day. They're on the lookout for construction work or other hazards that might damage underground or overhead lines. They warn anyone on the ground working near cables by dropping notes or calling to them over the plane's loudspeaker system.

Other cable patrols on foot, in trucks and snow vehicles travel along phone lines to spot hazards before they cause trouble. It seems like a lot of work, but this is the surest way to keep your telephone service ready for you, whenever you need it.

Any housewife who has once enjoyed the convenience of a telephone on her bedside table is seldom willing to give it up. Besides saving steps, a bedroom phone lets you make calls with more privacy. Sleep's a little safer, too.

Today you can order for your bedside the beautiful new "Princess" phone. It's small, has a built-in night light, and the dial lights up for easy dialing.

Drop by or call your telephone business office to order a "Princess" extension phone for your bedroom.

The pheasant season opening beckoned many local hunters who journeyed to various localities to try their luck and they all report no snow, a few pheasant and lots of rain. Among those who went off with high hopes were the Jack Starratts who went to Lincoln and combined the hunting with a weekend of visiting with Betty's parents, Mr. and Mrs. Richard Lee. The Roseville area was "attacked" by the Marshall Ruhkalas with Marshall and son Tommy bagging one each—Carl Bechdolt, Jr., son Parky and Jay Shontz tried the Woodland area — Martin Spitsen, Robert Pomin and son Randy also tried their luck with the elusive target last weekend.

DONNER DOINGS

By VIRGINIA O'BEAR

The Donner firemen have been kept very busy this past week. Friday, they were called out to the Martin Johnson home as there was a chimney fire. After the fire was spotted by Chuck Baker, the firemen immediately went to work and had it out completely without any serious damage. Monday afternoon, a large truck and tanker overturned across from Donlac at the west end of Donner Lake. The truck was loaded with high octane fuel and since there was a leak, the firemen stood by in case of an explosion.

* * *

Many ladies are expected for the dinner and business meeting this Thursday evening when the auxiliary of the Donner Lake Volunteer Fire Department meets for November. Many things will be discussed, among them will be plans for a Christmas party next month. Hostesses for the meeting this week will be Marcella Corro and Alice Strobel and they have been busy telephoning members this week in regards to the meeting place. The dinner will start promptly at 7:30 and a board meeting will be held just before the dinner between 7 and 7:30. President Jean Walker will preside.

* * *

Mr. and Mrs. George Davis and young son Rodney have moved into Truckee. We will miss them here at Donner and I am sure Grandma and Grandpa Slate will miss them most of all. They are living in the home just vacated by Rev. and Mrs. George Symons, who have moved to Donner Lake near the Lakeview Motel. We welcome them to Donner Lake and hope both of these families are settled and happy.

* * *

Charlie Clark was up last weekend from Santa Rosa with daughter Carol and son, Chuck. They were wishing for snow so it's too bad they didn't come up the past weekend as we had plenty of it. They will be up for Christmas so by then we should really have a white Christmas.

* * *

People at Donner Lake have been busy as bees the past few days preparing for the coffee pyramid which is sponsored by the auxiliary of the Tahoe Forest Hospital. Funds raised from this friendly get-together will be used for some much needed equipment for the hospital. The members of this auxiliary are to be congratulated on this new and fun way of raising money for a worthwhile cause.

* * *

Mrs. Tom Bonano, Mrs. Mary Myers and little Mike have taken off for 29 Palms and some sunshine. Tom is staying at home keeping the home fires burning and taking care of the business. Peri and Mike will be home in a few weeks but "grandma" will probably spend the winter there.

* * *

In case some of you think winter is here and you cannot plant flowers, etc., here is what I discovered in an almanac. According to astrology, plant "above ground crops" on the 18th, 21st, 22nd, 25th, and 27th of November. For root crops plant on the 3rd, 4th, 7th and 9th (which is too late). Seed beds on the 7th and 9th, the 17th and 18th. Set flower seeds on the 7th and 9th; 15th and 16th. Kill weeds on the 10th and 14th, the 23rd and 24th. Set hens and incubators on the 1st through the 10th and from the 26th through the 30th. Now if you feel you are too late for some of these things we could all wait and try our luck next year. Anyway, the birthstone for November is Topaz which means friendship.

IN THE BOARD OF SUPERVISORS OF THE COUNTY OF NEVADA, STATE OF CALIFORNIA

Regular Adjourned meeting
November 7, 1960
Present: John T. Trauner, Clerk
Wm. J. Cassettari, Deputy
District Attorney

The meeting was called to order at 10:00 a. m. by the Chairman of the Board and the following members were noted as present: Mosco F. Smart, W. W. Bishop, Guy N. Robinson and Henry G. Loehr.

The minutes of November 3, 1960 were read to the Board by the Clerk and a motion was made by Supervisor Robinson, seconded by Supervisor Smart and passed unanimously, approving the minutes as read.

The County Clerk presented the Board with an Appeal to a decision of the Planning Commission to issue a Use Permit at Higgins Corner for a Trailer Court. The matter was set-over until December 1 at 1:30 P. M. and the Clerk was to notify all interested persons.

The Assistant District Attorney presented the board with proposed Resolution No. 60-34 (a resolution to abandon certain county roads) and a motion was made by Supervisor Loehr, seconded by Super-Smart, to adopt Resolution No. 60-34. Upon a roll call ballot, the following vote was recorded:

Supervisor First District aye
Supervisor Second District aye
Supervisor Third District vacant
Supervisor Fourth District aye
Supervisor Fifth Disrict aye

Proposed Resolution No. 60-35 was read to the Board by the Clerk (a resolution fixing the salary of the District Attorney at $14,500.00 per annum) and the Chairman read to the Board figures of the salaries of full-time District Attorneys of other counties in the State of California. A motion was made by Supervisor Loehr, seconded by Supervisor Smart and passed unanimously, setting over until November 21, 1960 further consideration of the resolution.

At this time the Board of Supervisors entered into a study of the Survey Report conducted by the firm of Ernst and Ernst. The first person called before the Board was Miss Elma Hecker, County Treasurer and Tax Collector, who stated to the Board that she had no objections to the report as it pertained to her office.

Mr. Kitts was then called before the Board and a discussion was entered into between Mr. Kitts and the Board on the report as it pertains to his office. Mr. Kitts opposed some of the aspects of the salary schedules and also felt that a firm commitment should be made between the Auditor and the Assessor should the accounting machine in his office be transferred to the Auditor's office. No action was taken at this time on that portion of the report.

Mr. Clare Hughes, County Purchasing Agent, appeared before the Board and presented the Board with a bid that had been received from the Sierra Truck and Motor Company for a four-wheel drive pickup truck for use in the Road Department. The clerk read the bid to the Board of Supervisors in the amount of $2,882.71. A motion was made by Supervisor Smart, seconded by Supervisor Robinson and passed unanimously, accepting the bid of the Sierra Truck and Motor Company in the amount of $2,882.71.

The Assistant District Attorney presented the Board with a deed from C. A. Tollefson and Jessie I. Tollefson, his wife, deeding to the county a certain parcel of land situated in the County of Nevada. A motion was made by Supervisor Loehr, seconded by Supervisor Robinson and passed unanimously, accepting the deed and directing the Clerk to have it recorded.

A motion was then made, duly seconded and passed unanimously, to adjourn for lunch to reconvene at 2:00 P. M.

AFTERNOON SESSION:

The Board reconvened at 2:20 P. M. and it was noted that all memers of the Board were present.

The Board resumed study of the Ernst and Ernst Survey Report and called Mr. Clare Hughes, Purchasing Agent, to appear before them. Mr. Hughes appearing before the Board stated that he had two comments to make on the report as it pertained to the Purchasing Department. The first comment dealt with the lack of control inherent in the issuance of blanket purchase orders, and the second comment dealt primarily with the fact that even if carried out, there still would be certain periods of time in a year when extra help would be needed in the Purchasing Agent's department.

The County Clerk and the Board then discussed the Enrst and Ernst Report as it pertained to his department and when asked to make a statement, Mr. Trauner stated that the only discrepancy he noted was the amount of pay authorized for the Accounting Machine Operator, and further stated that he felt that that position should be classed as an Accounting Machine Operator at Range 15. There was no action taken by the Board upon the request.

There being no further business to come before the Board at this time, a motion was made, duly seconded and passed unanimously, to adjourn to meet again on November 21, 1960 at 10:00 A. M. thereof.

DONNER SUMMIT NEWS

By LLOYD W. GAY

SNOWY WEATHER

The first major storm of the season dumped a heavy, early snow on the summit area. The snow depth recorded at Soda Springs was 44 inches on Monday morning, falling mostly on Saturday and Sunday. The three-day storm deposited a total of 6.1 inches of moisture. The maximum temperature for the week ending Monday was 50 degrees on November 11, and the minimum was 22 degrees on November 9.

SUMMIT SKI AREAS

Operators of the areas ski developments viewed the possibility of an early opening with enthusiasm, although some expressed that the unusually heavy early snow caught them by surprise. Max Williamson of the Soda Springs Ski Corporation stated that the Soda Springs Ski Hill would open this weekend providing the snow remained as expected. The Soda Springs area also plans to be open over the Thanksgiving weekend. Norm Sayler of the Donner Ski Ranch announced plans to open the areas intermediate run from the chair lift for the weekend. The rope tow will probably not be running. The Sugar Bowl does not plan to change its scheduled mid-December opening date at this time, said Manager Ed Siegel, although they do not dismiss the possibility of an earlier opening.

SKI SHOPS

The early snow and early season opening has also caught the ski shops in varying stages of readiness. The Zorich Ski Shop will open this weekend with door prizes awarded among those present at 1 and 4 o'clock on Saturday and Sunday. Eli Carder's Mountain Shop may open this weekend. A new ski shop at the Donner Ski Ranch may open for the Thanksgiving weekend.

HOSPITAL AUXILIARY

The Truckee branch of the Tahoe Forest Hospital Auxiliary met last week in the home of Mrs. Roland Garwood in Truckee, and planned to stage a coffee pyramid to raise funds for emergency equipment at the hospital. The final choice of equipment to be purchased will be dependent upon the success of the fund raising drive although it will be an item for emergency use. Summit members of the auxiliary participating in the coffee pyramid on Thursday will be Zona Madden, Betty Board, Betty Hampton, Eleanor Johanson and Maggie Avila. The Truckee Chapter and the Tahoe Chapter of the Auxiliary are planning a joint dinner dance to be held at Lake Tahoe on November 19, featuring a roast beef dinner and a six-piece orchestra.

SCHOOL BOARD MEETS

The Tahoe Truckee School Board met last Thursday with Rex Anderson and Frank and Kaye Zoll attending from the Donner Trail Elementary School. The board transacted routine business in a brief meeting. One item of interest is the decision to increase the insurance coverage on the children riding the district school buses.

NEW NORDEN RESIDENTS

Mr. and Mrs. Morey, transferring from Roseville, just beat the snow into Norden last weekend as they completed moving just before the storm broke. They bring their four children, two of school age and two pre-schoolers. Morey is with the signal section of Southern Pacific, and was stationed briefly at Norden some four years ago.

RED CROSS SCHOOL

Of interest to prospective and present national ski patrolmen is the advanced Red Cross course being offered to holders of a current Red Cross standard card by Tahoe Truckee School District Nurse Charlotte Patnoude. The course will consist of six, three hour classes held each Thursday at the Truckee High School.

DONNER SUMMIT PUD

The monthly meeting of the Donner Summit Public Utility District, held the first Tuesday of each month, convened at the Donner Summit Lodge, and transacted some routine business in a short meeting under the direction of Chairman Max Williamson.

BIRTHDAY PARTY

A group of friends enjoyed dinner at the home of Herb and Lena Fredericks last Wednesday as Lena's father, John Utermark, celebrataed his 87th birthday.

READER WRITES

The following card, dated November 7, was received, pointing out an unintentional omission in a recent column. 'Dear Lloyd Gay, on October 31 there was a Halloween party at Kiski Lodge. In the paper you said the mummy was unidentified. Well the mummy was myself. Sincerely, Bruce Loder.' Thanks, Bruce, for setting me straight. Your prize winning costume was too well done.

ONE DISTRICT FOR TAHOE IS APPROVED

AUBURN — The Placer County Grand Jury has recommended the boundaries of the supervisorial districts be altered to provide a separate district in the Lake Tahoe area.

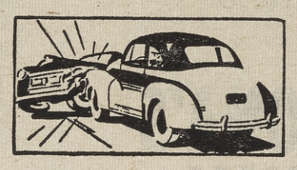

In a letter to the board of supervisors the jury suggested the boundaries of districts four and five be changed so district four would embrace the Forest Hill area and district five would include the Lake Tahoe area of the county.

The supervisors voiced approval of the recommendation and acted to form a committee to study the possibility of redistricting.

THERE'S PRACTICALLY NOTHING THE LANDCRUISER ISN'T...OR CAN'T DO. IT IS THE WORLD'S MOST POWERFUL, MOST VERSATILE, 4-WHEEL DRIVE, ALL-PURPOSE VEHICLE. READ ON AND SEE WHY IT'S FOR YOU!

THE LANDCRUISER'S 135 HORSE POWER almost *doubles* that of its leading competitor! Sure-wheeled. Stout suspension shrugs off ruts and bumps. Makes roads where there are none.

THE LANDCRUISER'S EXTRA-LOW 5.411 GEAR RATIO has *more pulling power* than any same-size utility vehicle. Toyota's rugged 4-gears need no babying. Soft soil never stops you. Just gear down and ride right through.

POWERFUL, FOUR-WHEEL DRIVE makes easy game of rockiest creek beds, cussedest mud and sand. 8.3-inch ground clearance and beefed-up steel flooring... safe-sure.

THE LANDCRUISER is a jack of all trades. Delivers up to a penny-pinching 24 miles a gallon. Demands little down time. Spare parts and Toyota service are yours at dealers across the land.

expenditures of these people for their existence.

Past President Charles Osburn expressed the hope that more business people of the area would take an active interest in the efforts of the club to protect, maintain and enhance the fishing and hunting conditions hereabouts.

Other members present pointed out that there was need for closer cooperation from the local service clubs and the chamber of commerce and more active participation and support from their members in the work and efforts of the club.

It was suggested that some leading personalities in the recreational field be asked to address the club on some of the problems effecting local conditions. If sufficient interest is shown in the matter, the club will arrange to have the first of a series of public meetings early in the new year at which some prominent state official will talk.

PRELIMINARY WORK STARTED ON ROAD

Preliminary clearing is being undertaken prior to widening and resurfacing of three miles of the Truckee Short Cut beginning 2.6 miles north of Kings Beach, according to state highway officials at the Marysville district office.

The road is a part of the federal-aid secondary system and is included in the state-wide program of improving important county highways. Work will continue until until weather closes down operations.

George E. Miller Construction Co., Inc. of Reno has the $348,350 contract, and Bernard Campbell of Yuba City is the resident engineer for the division of highways which is charged by federal law with the responsibility of general supervision of FAS projects.

Full scale construction will begin about April 1, 1961. No detours will be required during the winter.

REDISTRICTING WILL BECOME EFFECTIVE

Redistricting of Nevada County Supervisorial districts in accordance with the Grass Valley Junior Chamber of Commerce proposal, Proposition A, will become effective ten days after the board of supervisors certify the November 8 election ballots, either at the Monday, November 21 meeting or the regular Thursday, December 1, session.

The boundary changes will not materially effect county government or supervisorial candidacy until the primary election in 1962 when the terms of office for supervisors of Districts Three and Four draw to a close, except for the appointment by Governor Brown of a supervisor for District Three to complete the term of Jay Coughlan, deceased.

Hi:

We believe that where possible—trading locally makes for a financially healthful community. In order to encourage this we realize that we have an obligation to the shopper that we must fulfill.

So, we recently lowered most prices on our gift lines and held prices down on new useful and practical gifts that have just arrived.

It is very unlikely that the gift shopper can find better buys in larger western cities this season.

We sincerely hope you drop in and have a look, and please don't feel obligated.
